

SPARK MINDA

# AUTOMOTIVE FILTERS

2WH CATALOGUE 2019-20

IMPROVE MILEAGE

EASY TO FIT

HIGH INLET FLOW

MEET OEM SPECIFICATION

## Company & Product Overview

Minda Corporation Limited (Aftermarket Division) is the after-market arm of the Spark Minda Group. Effective 1st September, 2019 Minda Automotive Solutions Limited is merged with Minda Corporation Limited. The main objective of the company is to ensure availability of Spark Minda Spares across All India through its distribution network of Business Partners, who further ensure parts supplies to every corner of the Indian cities (metro, semi-metro, rural) for aftermarket replacement purpose.

Spark Minda is one of the leading OEM manufacturer since 1958 and the company supplies Automotive Security System (Locks), Driver Information System (Panel Instruments & Sensors), Connective Systems (Wiring Harness), Wiper Blades & Control Cables (Speedo Cables & Clutch Cables etc.) across all vehicle segment.

Filter is a very important part of engine system of the vehicle & plays a very major role in improving the overall performance & efficiency of the vehicle. Filter technology requires high precision and timely replacement cycle to have a long lasting impact on the engine life, consecutively to vehicle performance and environment. It is essential to have high inlet flow.

## Features to make Engine Live Longer!!

- Design to achieve OEM specification and has undergone through robust test cycle.
- Evenly optimal pleat count as well as cellulose fiber based media enable filter capacity to withhold extreme dirt/climate situation.
- Cleaner inlet flow and high density increases engine flow.
- Perform better in all climate condition.
